About

I am a punctual and organized person who prides myself on my reliability and attention to detail. My friendly and approachable nature allows me to build strong relationships with colleagues, fostering a collaborative and supportive work environment. I am always ready to lend a helping hand to others, ensuring a harmonious and productive team dynamic.

With my adaptability, I thrive in changing environments and swiftly adjust to new challenges.

Additionally, I am a quick learner, eager to acquire new skills and knowledge to contribute effectively to the success of the organization.

Education

- Bachelor of Electrical Engineering**

Institute/University: Shahid Chamran Ahvaz

September 2020 - June2024

Work Experiences

- HS design**

Ahaz/Naderi/Taleghani street/Bargh passage

From : July 2021 - April 2022

In my previous role as a backend specialist, I was responsible for developing and maintaining server-side logic, optimizing database performance, and ensuring seamless integration with front-end systems.
